

"QUIESCENCE" 58FT NARROW BOAT

“QUIESCENCE” 58FT NARROW BOAT

“Quiescence” is being offered on the market today for the first time since 2007. She was bought by her current owner for continuous cruising throughout the UK and as such has been equipped to a very high standard with a high quality finish. The current owner upgraded the charging system and battery monitor to a Victron system with the addition of a solar panel and wind turbine. He also had additional batteries fitted with an designated alternator for the domestic system. The accomadation features Corien worktops throughout the bath-room and kitchen.
